

**HUNTING
BLINDS**

About Us

—

At 360 Hunting Blinds we're passionate about whitetail hunting, land management and passing on our hunting heritage to the next generation. That's why we can say our blinds are truly built by hunters for hunters.

Whether you're hunting alone or with a buddy, our goal is to make your hunts as enjoyable and comfortable as possible; because when you're having fun it's easy to put in the time that it takes to put that next big buck down. We can assure you that at 360 Hunting Blinds you will find a well built quality blind that you can be proud of for many years.

Standard Series

With solid wood frame construction and seamless acrylic roof, the 360 Series is built to provide hunters with many seasons of comfortable, weather proof hunting.

Get tired of sitting? Stand fully upright in the spacious 6 foot 6inch high interior.

Our twelve by eighteen inch tinted windows feature a window raising mechanism - a perfectly silent, one handed operation that is ideal for gun or archery hunting.

The 360 Hunting Blind ships in a kit form with fully complete individual wall panels to allow for quick and easy two-person assembly on-site. See our assembly instructions on our website.

Features	Included	Upgrade Option
Twelve 12"x18" tinted gun/crossbow windows	•	
12"x32" Archery upgrade window(s)		•
One 18"x12" window in door	•

Generous 24x60 door frame that swings inward for safe entry and exit

Tinted rifle and archery windows with one-handed, quiet opening operation

Heavy duty LP Smart Side exterior with weatherproof coating

Four built in 4x4 mounting pockets under floor

Tower Stands

We offer tower stand kits available for your 360 Hunting Blind. We can also build custom tower stands designed to meet your specific needs.

Our kits ship with everything you need to elevate and secure your blind.

Wooden Tower Stand

Sturdy, pressure treated construction, designed to blend into the environment.

Metal Tower Stand

Long lasting, durable, and powder coated for many years of maintenance free use.

Custom Tower Stand

Reach for the sky with a custom tower stand suited for your needs.

The Hunting Blind with a Vision

The amazing 360 degree view from inside the hunting blind is something one must experience for themselves to fully appreciate.

It is made more comfortable and quiet by the carpeted floor and walls which are included in our Pro Series model.

Our archery window (shown right) is an upgrade that will increase your vertical viewing space and make it easier to maneuver for the shot.

Easy Assembly Process

Our 360 Hunting blind kits are easy to build on site, even in difficult to reach areas.

Assembly does not require heavy equipment, and can be put together with two or more people, and a few carpentry tools in a matter of hours.

Each wall panel weighs about 25 pounds and includes assembly fasteners and fully mounted windows.

The panels are installed in a numbered order and screwed together for a weather tight fit.

If you need blind setup assistance, ask your representative about our build on site service.

Our Favorite Hunting Stories And Testimonials

—

“When I was blessed to shoot “Smokey” my second 200” whitetail in 2017 it was no coincidence that I did so from a 360 Hunting Blind. I was first introduced to 360 Hunting Blinds at an outdoor show in Ohio a couple of years earlier and was so impressed that my business partner Kevin Boyer and I actually tried to buy the company.

Kevin and I are the owners of Real World Wildlife Products but we are serious deer hunters and land-managers first and foremost. We know what it takes to be successful and demand the highest quality products for our own hunting. In fact, this is the very reason we started Real World Wildlife Products 10 years ago; we felt we could offer better quality food-plot seed and deer nutrition products than were being offered to the hunting community. We challenge our customers to compare our products side-by-side with any similar product on the market and I make the same challenge regarding 360 Hunting Blinds.

There are a lot of reasons why I have 360 Hunting Blinds on my own property but it all starts with the great visibility and fact that there are no blind spots with the 360 blinds. It is important to see a target deer as soon as possible to get in position to make the shot when it presents itself and not miss the opportunity. The window system in the 360 hunting blinds is second to none. 360 hunting

blinds are also quiet, comfortable and well-built.

While Smokey was the first deer I ever shot from a 360 Hunting Blind, I am confident he won't be the last. If you are looking for a high-quality hunting blind you owe it to yourself to take a close look at 360 Hunting Blinds.”

Don Higgins

Co-owner of Real World Wildlife Products

Whitetail Consultant

Outdoor Writer

To see video of Don Higgins shooting Smokey from a 360 Hunting Blind go to www.realworldwildlifeproducts.com

We purchased our 360 blind this year and placed it in one of our food plots. The very first time we used the blind my son shot this 160 inch buck from 40 yards with his bow. The 360 view is exceptional. The sliding windows are quiet and easier to adjust than our other blinds. Very little heat is needed on cold days. We are very happy with the 360 blind.

Greg D. from SE Iowa

If you're in the market for a blind I believe you too will love the endless options that 360 Hunting Blinds offer. As someone who spends

countless days in the field I choose 360 Blinds, because it's the best blind on the market!

Blair Goins - The Rival TV

I really like my 360 blind. No blind spots with deer sneaking up on you. Quiet window operation. Makes for a fun hunt rain or shine.

Luke Z. Denver PA

I love hunting with my dad out of our 360 blind, especially on cold, rainy days like the day I shot this buck.

Kade W. Downing MO

Unlike other blinds with clear windows, the tinted windows in the 360 Hunting Blind allow a full 360 degree view and freedom of movement without deer being able to spot me.

Ed W. Memphis MO

What Makes Our Hunting Blind Great

We strive to build the best deer hunting blind on the market and will continue to perfect our designs for years to come.

We believe you will love it just as much as we do.

Quality Materials

We believe a design is only as good as the products used to make it.

Precise Craftsmanship

Every piece is carefully cut and assembled for a tight fit.

Strong Floor Supports

The floor in our hunting blind is designed to last for many hunting seasons supporting the weight of multiple hunters with gear.

Seamless Roof

Using market leading commercial roofing materials we build a seamless waterproof roof that will last decades.

Painted Exterior

Prior to packaging and shipping each blind, the walls are painted in a camouflage green to blend into a wooded setting.

Experienced Craftsman

We've been building things for over a decade and bring a highly developed skill-set to our craft.

Innovative Builds

Challenging constraints push us to creative solutions that result in a product we believe is built to the highest standards on the market.

Structural Integrity

Our designs are built to withstand incredible pressures in key stress points.

Weather Sealed

We use rubber weather stripping on our doors and window sills to ensure that no matter the weather, your 360 Hunting Blind will always be dry inside.

Padded Shooting Rails

Each window has a shooting rail with a noise dampening layer of carpet.

Easy On-site Assembly

Fully complete individual wall panels to allow for quick and easy two-person assembly on-site.

LP SmartSide - Our Exterior Of Choice

Treated For Everyday Durability

LP® SmartSide® products are not made of wafer, chip or particle board. In fact, our engineered wood products are made with our Treated Wood Strand Technology so you can rest assured your hunting blind will provide years of beautiful service!

Extra Protection, Tested Tough

All LP SmartSide products are treated with our proprietary SmartGuard® process to resist fungal decay and termites in harsh environments. Tested in Hilo, Hawaii, LP SmartSide products continue to resist structural damage, even after years of exposure to thriving termite colonies and excessive moisture!

Beauty That's Worth A Second Look

It takes only one look to notice the rich cedar grain texture and undeniable beauty of LP SmartSide products when compared to typical pine siding. It's a premium choice that gives your hunting blind an attractive custom-built look!

A Warranty That Protects Your Peace Of Mind

All LP SmartSide products feature a 5/50 year limited warranty, one of the best warranties in the industry. You can feel confident that you have made a better choice for lasting durability and beauty.

- 5-year, 100% labor and replacement feature*
- 50-year prorated, limited warranty on substrate*

LP[®] SmartGuard[®]

ENGINEERED TOUGHNESS TO RESIST HARSH CLIMATES

WAXES

Special water-resistant waxes coat each strand or fiber of wood for enhanced durability in rainy, humid environments.

RESIN-SATURATED OVERLAY

Offering the final layer of protection against the elements, a resin-saturated overlay resists moisture intrusion while providing a durable base for quality paint adhesion and beauty.

ZINC BORATE

Engineered wood products treated with zinc borate have been proven to effectively resist damage from termites and fungal decay for decades. Safe for children and pets, this naturally occurring additive provides long-lasting performance that preserves the beauty of LP SmartSide Trim and Siding.

ADVANCED BINDERS

LP SmartSide Trim and Siding provide incredible strength to resist impact damage thanks to their industrial-grade binders and resins. You'll have the confidence of knowing that your siding can stand up to everyday airborne debris such as hail and sticks, etc.
